The factors upon which they relied Monday to help the advance, continued in force, for the most part, yesterday. Possibly the unfavorable aspect of the proposed coal strike settlement had assumed a rather more positive phase yesterday, and Lackawanna and New Jersey Central scored sharp declines, though the number of shares transferred was so small as to deprive the changes of all significance. The only incident of the day which resembled aggressive action by the bulls was the marking up of railroads controlled by the Van-

LOCAL GRAIN AND PRODUCE.

Fine Weather, Good Trade and Steady Prices the Features.

The weather could hardly be more favorable to encouraging fall trade and with this prices carry a steady, firm tone, as a rule, weak prices being an exception. Dry goods are very strong in tone and buyers are numerous and stocking up from the largest and best assorted stocks ever carried by Indianapolis wholesale houses. Confectioners and dealers in fancy notions, as well, are busy for early October, and druggists are having a fine run of business. Leather dealers report trade improving somewhat with them. The produce market is active, poultry, eggs and butter, if good stock, being in good request at prices quoted, and revised daily. The provision market is active at the advance in prices of Monday, On Commission row the supply of fruits and vegetables is large, but with an increasing demand accumulations are not as large as last week, and better prices are obtained. The local grain market presents few new

features. Receipts are not large and the demand takes all arrivals readily at the following range of prices, as furnished by the secretary of

Theft by a Spanish Minister.

VALPARAISO, Chile, Oct. 2.-It is estimated that the amount of money alleged to have been embezzled by the former Spanish minister, Salvador Lopez y Guijarro, is more than \$100,000. The money belongs to Spanish subjects, who are very indignant. Lopez received the funds from the Chilean government to pay damages sustained by Spaniards during the revolution of 1891. Having presented his papers of retirement the minister disappeared without paying a cent to the claimants.

LARGER VISIBLE SUPPLY

IT HAD A DEPRESSING EFFECT ON THE WHEAT MARKET.

Corn Was Strong, Higher and Fairly Active-Oats a Shade Down and Hog Products Firmer.

The trade in wheat was small and featureless.

November opened at 77%c to 77%c, and ad-

CHICAGO, Oct. 2.-Wheat acted firm early, but turned heavy on the world's visible increase, November closing 1/6 %c under resterday. Corn closed %c higher, and cats a shade down. Pro-

> vanced early to 77%c. Liverpool was higher, Northwest receipts light, the weather of that section bad, with prospects of more of the same kind, and the markets of the spring wheat terof news at the start, and was further strengthened in its views by a Rosario cable announcing wet weather and poor crop prospects in northern Argentina. The market lacked outside support,

however, and November, on local sales, dropped to 77%@77%c. A falling off in aggregate Western receipts caused a slight rally, November touching 77%c, but Bradstreet's announcement of an increase of 1,438,000 bu in the world's visible caused added discouragement among holders, and the market slumped to 77c, closing heavy, November 160% lower at 77%c. New York reported 160 loads taken for export. Seaboard clearances, in wheat and flour, were equal to 804,000 bu. Primary receipts were 875,000 bu, compared with 1,285,000 bu last year. Minneapolis and Dubits to provide the search of t luth reported 460 cars, against 485 last week and 1,130 a year ago. Local receipts were 421 cars, 27 of contract grade. Corn was firm, and at times moderately active,

enjoying a somewhat larger outside trade and a good demand for cash. Receipts were only 644 cars, where 700 cars had been expected. Liverpool showed a strong advance, and wet weather West promised a lighter movement to market. The country acceptances were moderate. November opened at 37%c, sold between that figure and 37%c, and closed %c up at 37%c.

Oats were fairly active and inclined to be easier early. Later the market strengthened, in sympathy with corn. A good cash demand was felt, but there was difficulty in supplying it because of the low grading of much of that cereal. Receipts were 326 cars. November sold between 224c and 224c, closing a shade lower at 22%c. Provisions were firm on bullish showing of stocks, but lost part of the advance later on profit-taking, closing 2½c higher. January pork sold between \$11.75 and \$11.82½, and closed at \$11.75; January lard between \$6.87½@6.90 and \$6.90@6.92½, closing at \$6.87½@6.90, and January ribs between \$6.30 and \$6.32½, with the close at \$6.30
